- First day of a new settlement certainly brought some cheers for the markets as fresh long built up saw Nifty pulling back to post a gain of 182 points to end at 14507
- Although the gains were handy given the sharp losses of previous two days, Bulls will need extra dose of fire power to lift the sentiments up and markets higher. Nifty needs to surpass 14878 in order to mark an end to the current corrective trend.
- Its been just one day though and more positive action needed. Above Friday's high of 14575, Nifty faces hurdles at 14650.
- On the lower side, it remains t be seen whether 14350 holds or not. In case, the same gets violated, further downside towards 13650 is not ruled out.
