## NIFTY 10147 (-6)

Markets consolidated today inside a small range ahead of the crucial US Fed meeting slated on Wednesday. Nifty, Bank Nifty were seen trading inside a very narrow band while mid cap stocks continued to witness buying momentum.

On expected lines, markets remained confined inside small range. The gap threshold of 10131 acted as strong support for Nifty during intraday moves. At the same time, it failed to move beyond 10180 as well.

The index may continue to trade lacklustre tomorrow as well as traders await US Fed outcome. Although it is of not much consequence but the event has allowed markets to consolidate. Broader momentum is expected to remain strong tomorrow as well.
