# From Share India Research Desk...

The Week That Was

September 2nd to September 6th 2024.

# Tremors witnessed at Dalal Street which simply caused massive destruction to Nifty bulls' confidence.

### Profit booking blamed.

Nifty (-1.52%, 24852) Sensex (-1.43%, 81184)

It's strange and unbelievable, the catalysts and sentiments at stock markets changes so quickly that investors do not even know how it happened so suddenly!

Yes, the trading theme has changed quickly from the optimism about cooling US inflation towards fears over a slowdown in the US economy...

Blame it on the latest update on US manufacturing which has brought fear about a recession back to the surface.

Meanwhile, an unpleasant and unwelcome reading for investors from Friday's released US August Jobs Report is that it Points to a Smaller Fed Rate.

# Bottom-line: Before the Fed outcome on September 18th; bullish traders will have to brace with two inflation reports:

### The two inflation reports:

- 1) The Consumer Price Index (CPI retail inflation) report on September 11th
- 2) And on September 12th traders will have to brace for the Producer Price Index (PPI wholesale inflation) report.

# Long story short: Bullish investors see a decent chance for 50bps Fed cut in September and now brace for US NFP amid Fed rate cut speculation.

# The Week Ahead: After Jobs data, all eyes on US CPI inflation.

The United States, added an estimated 142,000 jobs in the month of August, an increase from a poor July figure but below street estimates. Its unemployment rate meanwhile declined slightly from 4.3% to 4.2%. The data shows a steady, but slower pace of hiring compared to previous months, reflecting a stabilisation in the US job market. With the job market still showing resilience and wages increasing, the Fed may opt for a cautious approach.

After jobs data, CPI inflation becomes a very crucial data to watch out for. The US CPI inflation figures for August will release on Wednesday, September 11th. Last month the inflation was seen cooling off which spurred a wave of optimism at Wall Street and global stock markets. But with a resilient jobs report last Friday, markets will be keen on the release of CPI inflation data for Fed to decide the magnitude of rate cuts in their September meeting.

Back at home, the CPI inflation data will release on Thursday, September 12th followed by WPI Inflation data on Friday, September 13th. With concern on food inflation dwindling with the monsoon progressing well, the Reserve Bank of India (RBI) is warming up to the idea of a change in stance to "neutral" from "withdrawal of accommodation", according to economists. Hence all eyes will also be on domestic inflation figures this week for RBI to decide on their stance.

Amongst IPOs this week, the mega IPO of Bajaj Housing Finance will take the centre stage. Bajaj Housing Finance IPO price band is set at ₹ 66 to ₹ 70 per share. The minimum lot size for an application is 214 Shares. The total issue size is Rs. 6560 crores. The issue opens on 9th Sep and ends on Sep 11th.

Also, P N Gadgil Jewellers IPO price band is set at ₹ 456 to 480 per share. The minimum lot size for an application is 31 Shares. The minimum amount of investment required by retail investors is 14,880. The issue opens on Sep 10th & ends on Sep 12th.

Technically speaking, a long bearish candle was seen on daily charts of Nifty in Friday's session. Confirmation of strength only above Nifty's all-time high at 25334 mark. On the downside, Nifty has closed below psychological 25000 mark as well. Key make-or-break support at 24654 mark.

The Nifty options data suggests Nifty is likely to be in a trading range of 24200-25200 zone. Maximum Call OI is at 25000 followed by 26000 strike prices. So, the 26000 mark is still Nifty's major resistance zone. Maximum Put open interest stands at 24000 levels followed by 24500 levels. Call writing was seen at 25400 and then at 25600 strike prices, while there was meaningful Put writing at 24700 and then at 24500 strike prices.

Long Story Short: Cautious stance ahead of key inflation figures set to release this week.

### NIFTY AUTO Index: 25527: UNDERPERFORM

In last week's trade, Nifty Auto index witnessed massive profit booking and the
negative takeaway was that the benchmark ended way below the dotted lines
amidst sell-off witnessed in select Auto stocks like Ashok Leyland (-3.37%) Eicher
